Whatever your position on abortion, this brave, independent film is an eye-opener that will change hearts and minds.

— Michelle Malkin

Frame by frame, Gosnell tears apart everything America has told itself and the world about abortion.

— writer and playwright
John Waters

The film is the shocking true story of the investigation and trial of Dr. Kermit Gosnell — his 30 year killing spree and the political and media establishment that tried to cover it up. Originally investigated for illegal prescription drug sales, a raid by DEA, FBI & local law enforcement revealed crimes they could not have expected within the clinic.
