

What if you
had a movie in your hands that
could change someone else's life?

bella

*We are pleased to invite you
to a special showing of
the movie, Bella!*

This award-winning film has touched hearts and changed lives all across America and internationally. One of the producers, Jason Jones, had the vision to get the movie into the hands of every woman in an unplanned pregnancy who is considering an abortion. This ministry is called Bella HERO. They now have several hundred pregnancy care centers participating in that mission with over 85 documented cases of babies saved through this effort.

Two additional outreach programs have now been rolled out: "Bella on Campus" with 22 screenings at campuses, so far, and a prison ministry called "Jose's Second Chance."

Following the 90-minute movie, Tracy Reynolds from Bella HERO will be joining us to speak on the incredible effect this movie has had in crisis pregnancy centers, college campuses and prisons.

Bella received several awards and honors, including:

Winner of the "People's Choice Award" at the 2006 Toronto International Film Festival

Winner of the Heartland Film Festival's Grand Prize Award for Best Dramatic Feature

Received the Tony Bennett Media Excellence Award

Received the Smithsonian Institution's "Legacy Award" for the film's positive contribution to Latino art and culture
